

● Announcement

Date June 17,18,19, 2015

Conference Site

National Center of Science
2-1-2 Hitotsubashi
Chiyoda-ku, Tokyo, JAPAN

Session Style

Oral or Interactive (Poster session) presentation.
4 tracks of conference program are scheduled alongside.

***Oral:**

[General Papers] 20 minutes (includes 5min. Q&A)

[Invited Papers] 30 minutes (includes 5min. Q&A)

[Keynote Speech] 50 minutes (includes 5min. Q&A)

***Interactive:**

5 min. oral presentation (without Q&A) and 150 min. poster exhibit.

The Host Societies

The Imaging Society of Japan (ISJ)

The Society of Photography and Imaging of Japan (SPIJ)

The Japanese Society of Printing Science and Technology (JSPST)

The Institute of Image Electronics Engineers of Japan (IIEEJ)

The Institute of Image Information and Television Engineers (ITE)

Cosponsored by

The Society for Imaging Science and Technology (IS&T: USA)

Japan Society of Colour Material (JSCM)

NICT International Exchange Program

1st ICAI 2015

The 1st International Conference
on Advanced Imaging

2nd Call for Papers

Abstract Deadline: Nov. 30, 2014

The Abstract Submission Site is now open!

We are pleased to announce that “The 1st International Conference on Advanced Imaging” will be held in June, 2015. Now the imaging technology sees a more complicated technological landscape than before: the combination of digitization and network expansion makes technology fusion a necessity. Accordingly, we need to think about how the images should be in a variety of scenes. What are the best image displaying devices in a particular scene? How do we want to share information by using images? How do we recognize images?

The imaging technology is to explore the new horizons. Its use will not be limited to conventional business scenes. The imaging technology can now provide tools to inform you in countless situations. While you are in the traffic, what image information do you get? You can also choose different information devices whether you get information personally or share it in a group of people. You can see different modes of price tags or signs in a supermarket. You can display images in different modes in your living room. The imaging technology has huge potentials, e.g., highlighting the affected part in the Region of Interest in medical imaging, and using the technology for security purposes. By studying these possible scenes, we can further improve the technology to reach a new level of sophistication, when you may be able to choose the optimal image information efficiently wherever you will be.

Your active participation in this conference is more than welcome. We hope that fruitful discussions in this conference will lead to the incubation of new imaging technologies for the future.

● Abstract Submission

Original technical contributions on imaging science and technology are invited. Suggested topics include those listed on “Conference Topics / Technical Areas”.

Authors may choose either an oral presentation or an interactive (poster) presentation. Oral and interactive presentations are considered as being equally important. Please prepare the information requested below and submit via “ICAI Abstract Submission” webpage.

Application Qualification

As a general rule, primary author should be a member of the Society or the Association around the world related to imaging technology.

Abstract Submission

1. Paper Title
2. Preferred program track (topics)
3. Preference for oral or poster presentation
4. Speaker name
5. Age (ISJ members only)*¹
6. Speaker affiliation
7. Address, telephone, fax and e-mail
8. Co-author(s) name(s) and affiliation(s)
9. Abstract (200 ~300words with related figures and/or tables)

*¹ ISJ member under 40 is a candidate for the ISJ incentive award 2015

Webpage for Submission

<http://www.isj-imaging.org/event/ICAI2015/>
→ [Abstract Submission]

Abstract submission Deadline: **Nov. 30, 2014**

● Paper Preparation

Please refer the template file (MS-Word) for preparing the manuscript of this conference. Color graphics (figures, photos) are printed in B/W on the hardcopy proceeding but you can represent color in the CD-ROM proceeding. Please submit a MS-Word file via webpage of “1st ICAI Paper Submission” by the due date.

When the manuscript is uploaded, MS-Word format is automatically converted to a PDF format. Please make sure that your manuscript is converted properly. The webpage will be prepared by the middle of the February.

Full papers due: **April 3, 2015**

● Conference Overview

Technical Sessions June17(Wed.)-19(Fri.)
Keynote Speech, Invited Papers, General Papers and Interactive Papers.

Poster Sessions June18(Thu.)
150 min. poster exhibit.(Interactive Papers).

Incubation Sessions June19(Fri.)
This is a place for meetings of the minds both from industry and academia in the fields of imaging technologies. We provide opportunities for collaboration with potential industrial partners by presenting research projects at member universities of this international conference.

Social Hour June18(Thu.)
Communication and networking with authors, participants.
Exhibition June17(Wed.)-19(Fri.)
Machines, Devices and Measurement Instruments related to Imaging Technologies, etc.

Invitation for Exhibitors

The committee plans to have a exhibition of imaging and printing related products
If you would like to exhibit at 1st ICAI, please contact ICAI office.
icai@isj-imaging.org

● Conference Topics/ Technical Areas

T1. Digital Processing

Image Processing,
Medical & Bio Imaging,
3D Imaging,
Cross Media Technology

Track Management:
The Institute of Image
Information and Television Engineers

T2. International Standardization and its Strategy

Standardization for Creation, Coding,
Presentation, Recognition,
Interchange, Interface, Color,
and Accessibility technologies,
Standardization of Human
Resources Development

Track Management: The Institute of
Image Electronics Engineers of Japan

T3. Capturing & Utilization of Image

Photography in Life and Culture,
Image Acquisition,
Sensing of Radiation and
Emission,
Acquisition and Modeling of
Material Appearance,
Restoration and Archiving of
Images

Track Management: The Society of
Photography and Imaging of Japan

T4. Imaging Materials & Devices

New Materials for Novel Imaging Technology,
New Applications of Printing by
Material technology,
EX: Electronic Paper, Liquid Crystal Display,
Ink Jet Printing, Electrophotography, Thermal
Printing

Track Management: The Imaging Society of Japan

T5. Printing & Fabrication

Traditional/Innovative Printing,
Digital Fabrication,
Pre/Post Press, Color Management,
Digital Workflow, Security/ Archive

The Japanese Society of Printing Science and Technology

● Keynotes

Prof. Tsuhan Chen
Cornell University, USA
“From Image Processing to Scene
Understanding: Learning and Sharing Context
for Holistic Image Analysis”

Prof. Tineke M Egedy
The Delft Institute for Research on
Standardization, Netherlands
“Challenges of standardizing emerging
innovations on converging technologies”

Prof. James A. Ferwerda
Chester F. Carlson Center for Imaging Science
Rochester Institute of Technology
“ On pictures and stuff: image quality and
material appearance ”

Dr. Ir. Kars-Michiel Lensen
Philips Research, Netherlands
“Novel Concept for Smart Windows
(Tentative)”

Prof. Reinhard Bauman
Chrmnitz University, Germany
“The latest technology trends on printed
electronics, and practical situation in
European market(tentative)”
