

Call for Papers

Japan Hardcopy 2005

The Annual Conference of the Imaging Society of Japan

June 8-10, 2005

Kokuyo Hall, Shinagawa, Tokyo, Japan

An Invitation to Authors

Original technical contributions on imaging science and technology are invited. Suggested topics include those listed under "Proposed program topics". Oral presentations are 20 minutes long, including a 5-minute question period. Interactive presentations will be planned when many papers are applied. Oral and interactive presentations are considered as being equally important.

Please submit the information requested below via e-mail by March 4, 2005.

e-mail: event@isj-imaging.org

- Paper title
- Abstract of approximately 200 words.
- Author name(s), affiliation(s), address, telephone, fax and e-mail.
- Preferred session assignment
- Preference (if any) for oral or interactive presentation.

Preferences will be accommodated whenever possible.

Authors will be notified of acceptance by the end of March, 2005.

Full papers (within 4 pages) must be submitted by April 22, 2005.

Detailed instructions for the papers will be sent upon acceptance. Authors are responsible for obtaining the necessary and appropriate clearances from their company, or organization. If you have any questions or no information about paper acceptance, please contact the JH2005 committee by e-mail: event@isj-imaging.org, or by fax: +81-3-3372-4414.

Proposed Program topics

1. Direct marking

Ink jet, toner marking, thermal prints

2. Electrophotography

Processes, devices, materials, mechanicals

3. Electronic imaging

Electronic paper, Digital paper, Re-writable marking

4. Novel imaging

5. Image input

Image scanner, Digital camera

6. Image processing and network

7. Image measurement and evaluation

8. Environment protection and energy saving

Special program topics

9. Application of imaging technologies to new fields

Imaging materials for display and electronics devices

Process technologies for circuit pattern printing, thin film coating
and so on

10. Key parts for Electrophotography

Rubber roller, blade, belt, film, filter, LD, LED

Measurement technologies and instruments
